

Item	Description	Year	Amount
<b>*****Items Included and installed*****</b>			
Engine	Tacoma 4.0L V6 (125 miles) (Plastic Intake Plenum had small crack on top side - <b>Replaced with new OEM Intake Plenum and Gasket \$229.53</b> , Plastic Air Intake Cracked in two spots - <b>Replaced with New K&amp;N Intake system \$223.90</b> , Oil Filter got small dent - <b>replaced with New OEM Oil Filter \$3.90</b> , Plastic Oil Fill Tube split and repaired with epoxy resin, Fuse Box casing damaged, but wiring and fuses are in place and good condition - can be repaired with epoxy or replace plastic casing)	2005	
Frame	Tacoma/4x4 Pickup Custom Frame (Combined 2005 Tacoma 4x4 with 1985 Toyota 4x4, During Fabrication the frame alignment shifted slightly in the rear and will need to be put on frame straightener when completed Est. \$250.00)	85/05	
Front Bumber	Tacoma(Aluminum bumper, I have the bumper shell, but was not planning on using it)	2005	
Body	Cab,Fenders,Hood,Doors,Longbed,Tail Gate (Typical Old Work Truck Condition, Truck had 168,000 miles, dents in the driver's door, ding in driver's fender, dent in rear corner, some rust in bed and on tail gate)	1985	
Transmission	Tacoma 6spd 4x4 (125 miles)(No Visible Damage)(1st gear is lower for torque)	2005	
TransferCase	Tacoma Electric Shift (125 miles)(No Visible Damage)(The front driveline comes out on the driver's side, unlike the older models that come out on the passenger side)	2005	
Rear Axle	Tacoma(Rear Axle was bent on passenger side - <b>Replaced housing with New OEM housing \$633.39</b> , passenger side axle shaft was thousandths out - <b>Had professional machine shop straighten the axle shaft \$49.00</b> , Bearing Housing damaged during disassembly - <b>Replaced with New OEM Bearing Housing \$236.70</b> ) This axle has <b>Toyota TRD Electric Locker</b>	2005	
Front Axle	Tacoma (125 Miles)(No Visible Damage)	2005	
Front Driveline	Tacoma (125 Miles)(No Visible Damage)	2005	
Rear Driveline	Tacoma (125 Miles)(No Visible Damage)( <b>Professionally Shortened to fit the smaller wheelbase</b> )	2005	
TRD package	Tacoma, Bilstein Shocks, Rear Locker....	2005	
AC Condensor	Tacoma (AC Condensor was bent - <b>Replaced with New OEM AC Condensor \$480.90</b> , Custom mounts were made to install the AC condensor)	2005	
Radiator	Tacoma (Radiator was bent - <b>Replaced with New OEM Radiator \$343.08</b> , custom mounts were made to hold the radiator)	2005	
Wheels	3 Tacoma Alloy, 1 Bent Tacoma Alloy, 1 Tacoma Steel Spare (125 Miles)	2005	

Item	Description	Year	Amount
<b>*****Items Included and installed Continued*****</b>			
Tires	4 BFGoodwrench (125 Miles) 1 Fullsize BFGoodwrench spare(Tires are in excellent condition)	2005	
Fuel Tank	Tacoma (125 Miles)(No Visible Damage)(Contains some fuel)(Bed needs custom fuel fill hole cause gas tank is on driver's side unlike 85 model being on the passenger side)	2005	
Exhaust	Tacoma(125 Miles)( No Visible Damage)(Custom Shortened to fit the smaller wheel base)	2005	
Fuel Lines	Tacoma(125 Miles)No Visible Damage)(Attached to frame with custom tabs	2005	
Brake Lines	Tacoma(125 Miles)(No Visible Damage)(Brake lines in the engine bay need to be secured)	2005	
<b>*****Items Included but not installed*****</b>			
Steering Column	Tacoma(No Visible Damage)	2005	
Steering Wheel	Tacoma(Wheel has some scrapes in the material) (Airbag is included has no visible damage)	2005	
Dash Support	Toyota(I was going to use this 1985 bar and make mounts for the new steering column, stereo, heaterCore, wiring, computers....)	1985	
Stereo	Tacoma(No Visible Damage)	2005	
Wiring Harness	Tacoma (125 Miles)(The Wiring looks in good condition, I labeled the wiring during disassembly, one of the rear light connections is missing and one of the front light connections is missing but I was planning on using the 85 lights anyway so those connections will have to be replaced with 85 model connections)	2005	
Computers	Tacoma (125 Miles)(No visible damage)	2005	
Engine Accessories	Tacoma(Power Steering Pump, Anti Lock Brake Controler, ... need to make mounts in engine bay for these)	2005	
Dash	Tacoma(Visible Damage)(I was planning to use either the old 85 dash and cut a spot for the 05 CD Player, Instrument cluster..... or I was going to make a custom dash out of aluminum or figerglass)(Air bag is included and has No Visible Damage)	2005	
Instrument Cluster	Tacoma(No Visible Damage)	2005	
Heater Core and Fan	Tacoma(Visible Damage)(Plastic casing on the bottom and back is cracked, can be fixed with epoxy resin and fiberglass)( <b>If the truck is going to be for racing or off-roading the heater core and fan assembly isn't necessary, but I bought that \$480.90 AC Condensor just in case.</b> )	2005	
Bucket Seats	Tacoma (125 Miles)(Back supports got bent - <b>Took covers off and bent the frames back to original position and reinstalled seat cover</b> )( headrests could not be salvaged)	2005	
Interior Carpet	Tacoma(I was going to fit the tacoma carpet in and cut out the excess)	2005	

Item	Description	Year	Amount
*****Items Included but not installed Continued*****			
Flex-a-lite Fan	New electric fan \$247.38(Mounts need to be made to fit it onto the Radiator,use foam tape to take up the half inch gap between fan housing and radiator surface)	2006	
Other nuts,bolts,etc...	Tacoma(should be in good condition with two buckets of hardware)	2005	
Project Truck Total			\$ 5,850.00
